## AIR™

STRETCHABLE BRIEFS

When it comes to managing loss of bladder control, you can never have too much protection, too much comfort, or too much breathability. Prevail® introduces Prevail AIR™ Stretchable Briefs; a revolutionary product that has 100% breathability in the waistbands and sides, allowing skin to breathe. Prevail AIR™ also features an AirMax™ Layer that allows air, heat, and humidity to escape while trapping wetness inside the specially formulated breathable poly.

## Seni premium quality products are:

- Equipped with standing side gathers - they reduce the risk of side leakages;
- Vapor permeable - the skin can breathe easily; more comfort and healthier skin;
- Soft and comfortable - soft non-woven Extra Dry System allows wetness to be distributed and absorbed into the core faster, improves the feeling of dryness; reduces the risk of bedsores;
- Very absorbent and do not need to be changed so often; people can sleep all night and maintain more dignity;
- Superabsorbent bonds the moisture into the core and minimizes urine odor.

PREMIUM QUALITY

### What others say about Seni ?

*As a geriatric care manager I have many clients who are incontinent or experience other urinary issues. Seni products are absolutely AMAZING. My clients and families love them. They allow them to not fear going out and provides a sense of security and comfort. They also prevent any skin breakdown. Until you try them you cannot believe how wonderful they are. They are especially good if a person suffers from some type of dementia and gets agitated if they need changing. Due to the design and absorbency they don't need to be changed as often. I never thought I would become so enthusiastic about a incontinence / bladder product but they deserve high praise. You use less products so they are very cost effective.*
